A. Raymond, Inc.

Engineered Fasteners and Systems

To Whom It May Concern:

A. Raymond, Inc. began a supplier relationship with Miltech Industries, Inc. in August of 1999 with the awarding of (1) production assembly job to them. Miltech met and exceeded the performance guidelines set by A. Raymond, Inc.

We have since awarded (3) more production jobs to Miltech and again they have exceeded our expectations in the number of units produced with a zero PPM of non-conforming parts. In this short span of time, Miltech has assembled over (500,000) units of product for our company and has assisted us in making sure logistical problems did not arise.

Miltech Industries, Inc. has become a valuable tool to A. Raymond, Inc. If your company has a need for such services, we highly recommend giving Miltech a look.

Sincerely,

James P. Hamann
Senior Buyer
A. Raymond, Inc.
