

DAIMLERCHRYSLER

DaimlerChrysler Corporation

Miltech Industries Inc.
6650 Burroughs
Sterling Heights, MI 48314
Attn. Mr. Gary Miller, President

To Whom It May Concern:

Several years ago DaimlerChrysler Corporation embarked on a "Second Tier Program." The intent of this program is to provide additional sourcing opportunities for minority suppliers through our first tier supply partners.

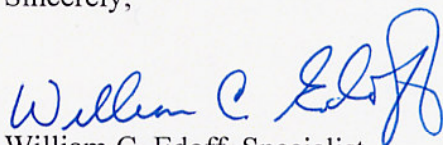

Often we are asked to recommend a minority company that may be able to meet their needs. One such company is Miltech Industries, Inc. I had an opportunity to review Miltech's facility and found them to be efficient, modern, and clean.

Miltech Industries is a certified minority owned business that specializes in automated and manual component assemblies. Their services include, but not limited to, wire harness assembly, hot stamp/melt, heat sealing, packaging, sorting, and rework.

We ask that you allow Miltech Industries an opportunity to participate in your sourcing needs. Any business done with Miltech, by any of our first tier suppliers, can be counted toward your 5% minority goal.

If your current source, for this commodity is minority owned, it is not DaimlerChrysler's intent that they are replaced. This program is intended to provide opportunities for minority firms in addition to your current sources.

Sincerely,

William C. Edoff, Specialist
Special Supplier Relations
DaimlerChrysler Corporation
