

**PAST PERFORMANCE EVALUATION DATA**

**Customer:**

**TRW AUTOMOTIVE, FARMINGTON, MI**

**Contract Number/Period of Performance:**

**DEC - 2007 THUR DEC - 2008**

**Contract Type:**

**SPOT BUY HARNESS BUILD AND REPAIR**

**Total Contract Value:**

**Point of Contact: Steve Criger**

**Contract Work Description:**

We build special test harnesses for TRW that are used to evaluate life cycles of a product. We cut wire, terminate, insulate connectors, splice as required, shrink as necessary cover with flex sleeve. These harnesses would connect one to the product and the other to a test chamber. They would be testing the product for vibration, durability, functionality and temperature.
