Gary Miller, President  
Miltech Industries, Inc.  
6650 Burroughs  
Sterling Heights, MI. 48314

Dear Mr. Miller,

Thank you for your timely and error free completion of the engine harness reworks last week. Your efforts enabled us to meet a very crucial delivery to our customer and we appreciated the service you were able to provide us on such short notice.

We've enjoyed the 2-year relationship we've had with Miltech and have always been able to count on great service and quick response to what's usually a spot request with little notice. As our needs for local prototype support grows, I'm sure we'll continue to leverage your floor space and available labor to address our requirements.

I wish you much continued success in your business.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Trafton".

Michael Trafton  
Engineering Program Manager  
Prestolite Wire Corp.
